

MAKE THE EU 'EFFORT SHARING' REGULATION FIT FOR CLIMATE NEUTRALITY

GUARANTEE THE EU GREEN DEAL BY ENSURING ROBUST NATIONAL OWNERSHIP OF EU CLIMATE OBJECTIVES

THE 'ESR' IS THE ONLY EU MEASURE BINDING INDIVIDUAL MEMBER STATES TO EMISSION REDUCTION TARGETS

ITS REVISION MUST ENHANCE NATIONAL OWNERSHIP OF THIS RESPONSIBILITY BY ENSURING MEMBER STATES' TARGETS ARE MET AND NATIONAL PLANS ARE STRONG.

KEEP THE ESR HONEST, BY KEEPING EMISSIONS DOWN

DESIGN THE MOST AMBITIOUS EMISSION TRAJECTORY POSSIBLE, REPEAL LOOPHOLES, TIGHTEN HARMFUL FLEXIBILITIES AND COUNT ALL EMISSIONS INCLUDING FROM UNSUSTAINABLE BIOMASS.

ESR COMPLIANCE RULES MUST CREATE A REAL DETERRENT

THE ESR SHOULD CREATE FINANCIAL SANCTIONS, GREATER TRANSPARENCY ABOUT NATIONAL CORRECTIVE ACTION AND GIVE CITIZENS ACCESS TO NATIONAL COURTS TO CHALLENGE BREACHES.

STOP GIVING CLIMATE ACTION A BAD NAME!

STOP TALKING ABOUT 'EFFORTS' AND 'BURDENS' AND RENAME THE ESR THE CLIMATE ACTION REGULATION FOR EUROPE... THE 'CARE'.

NATIONAL RESPONSIBILITY FOR CLIMATE ACTION CANNOT HAVE AN EXPIRY DATE

THE ESR REVISION MUST REQUIRE THE COMMISSION TO PROPOSE NATIONAL TARGETS FOR 2035 AND 2040 AND ESTABLISH A PROCESS ENSURING EACH MEMBER STATE ADOPTS A CLIMATE NEUTRALITY DATE.

DELIVERING TARGETS DEPENDS ON A GOOD PLAN

USE THE REVISION OF THE ESR TO UPDATE EU RULES ON NATIONAL AND EU PLAN-MAKING (CONTAINED IN THE GOVERNANCE REGULATION) TO REFLECT THE URGENT NEED TO ALIGN PLANS WITH THE EU'S NEW CLIMATE NEUTRALITY TARGET.
